The method of divide-and-conquer is as old as Julius Caesar. This tactic-called “A Strategy of Tensions” by the CIA-is still widely used today. Domestically, this divisive technique manifests as “Identity Politics,” where various demographics are pitted against each other (I a boy to distract them from the Ruling Elite). Illustrative of this strategy on the international stage is the current crisis in the Ukraine, which is really a method to pit Germany against Russia and China, in order to sabotage The New Silk Road that China is building across the Eurasian landmass. A question: Can the New World Order crowd unify the world (which their model calls for) by dividing it? Is fragmenting the planet ironically hurting their One World Government goal? And if so, can Humpty Dumpty be put back together again?
