John Tamny: the FTX Collapse, Crypto, and Money Confusion

The collapse of the crypto giant FTX by no means indicates the failure of the cryptocurrency market—but rather serves as a strong signal of crypto's staying power.

In this interview with The New American, John Tamny of RealClearMarkets.com explains why the crypto currency has a powerful potential, and why he is not concerned with the prospects of the central bank digital currencies (CBDC) pursued by the Biden administration.

John Tamny is a political economy editor at Forbes, senior economic advisor to Toreador Research & Trading, and editor of RealClearMarkets.com. For more of his analysis, please click here.
