News About FBI's Hunter Biden Probe Not News

Headlines in the leftist mainstream media are reporting what they want consumers to believe is breaking news about Hunter Biden and his dealings with Communist China. The FBI is investigating money-laundering by the “president-elect’s” son, they say.

The problem is this: The story isn’t really news for those who followed the Bidens before the election.

The media is reporting it as news, though, because they covered up the probe when it was revealed in October. [Fox News revealed](#) the investigation less than two weeks before the election, but most media buried negative stories about Hunter Biden, including scandalous and incriminating material on his now-famous laptop.

It contained documents that divulged the Biden Mafia’s ties to Ukraine and China — and involved the man now calling himself “president-elect.”

CNN Story

[CNN’s headline](#) over its “breaking” story says “Federal criminal investigation into Hunter Biden focuses on his business dealings in China”:

After going quiet in the months before the election, federal authorities are now actively investigating the business dealings of Hunter Biden, a person with knowledge of the probe said. His father, President-elect Joe Biden, is not implicated.

Now that the election is over, the investigation is entering a new phase. Federal prosecutors in Delaware, working with the IRS Criminal Investigation agency and the FBI, are taking overt steps such as issuing subpoenas and seeking interviews, the person with knowledge said.

The investigation went quiet only because the media refused to cover it. Yet when the media let a story about Trump “go quiet” no one can remember, but anyway, CNN continued with this:

Investigators have been examining multiple financial issues, including whether Hunter Biden and his associates violated tax and money laundering laws in business dealings in foreign countries, principally China, according to two people briefed on the probe.

CNN permitted young Biden to claim that yesterday was the first he’d heard of the probe, and then explained that the FBI launched the probe in 2018:

Investigators appear to be focused on Hunter Biden's business activities connected to China. Some of his business dealings in China are publicly known through interviews and documents released in September by Senate Republicans on the Finance Committee and the Committee on Homeland Security and Government Affairs.

After his father left office in 2017, Hunter Biden worked on securing a deal with CEFC China Energy to invest in US energy projects, according to documents released by Republicans.

At least one of the matters investigators have examined is a 2017 gift of a 2.8-carat diamond that Hunter Biden received from CEFC's founder and former chairman Ye Jianming after a Miami business meeting, one person briefed on the matter said. In 2019, Biden provided the *New Yorker* magazine an account of receiving the diamond from Ye. He told the *New Yorker* that he felt uncomfortable receiving the diamond and gave it to other associates, and that he doesn't know what they did with it. "I knew it wasn't a good idea to take it. I just felt like it was weird," he said in his *New Yorker* interview.

All that might be true, but CNN is leaving out one important detail.

Story Suppressed

The network buried the Hunter Biden story so it would not harm his father. The story was not, as the [Daily Beast reported](#), "largely unnoticed." It was actively suppressed.

As [TNA reported](#) last week, Project Veritas secretly recorded CNN's 9 a.m. morning meetings. The recordings reveal that top CNN hands, including the network's president, Jeff Zucker, openly plotted to "go after" South Carolina Lindsey Graham and torpedo President Trump's campaign.

One way to do that was deep-sixing the Hunter Biden story that resurrected the Biden-Burisma influence-peddling scandal, which disclosed that untold riches for the Biden Clan were on a fast boat from China.

"Obviously, we're not going with the *New York Post* story right now on Hunter Biden, which seems to be giving its marching orders to Fox News and the right-wing echo chamber about what to talk about today," a top exec said.

For the record, here are the stories CNN and its leftist media conspirators suppressed in order to elect Biden:

- [E-mails connect](#) Joe Biden, through Hunter, to the Biden-Burisma influence-peddling scheme;
- [E-mails connect](#) Joe Biden, through Hunter, [to Chinese operatives](#);
- Hunter Biden's [laptop contained](#) sensitive information about U.S. officials;
- The [laptop contained](#) photographs of underage girls;
- The [laptop contained](#) photos of a stoned Hunter Biden, along with records that he spent \$11,400 at a strip joint and \$21,000 spent on live-cam porn;

Along with CNN's refusal to report the story, social media suppressed it in what [GOP Senator Josh Hawley called](#) an illegal, in-kind contribution to Biden's campaign.
