

Fox News Media-Dominion Legal Settlement Is Biggest Bait-and-Switch Scam in History

I feel like Paul Revere for patriots. Except I'm shouting, "The elections are being stolen! The elections are being stolen!"

I grew up on the mean streets of New York. I am very familiar with bait and switch. Walking the streets of New York City, I saw three-card Monte con men setting up shop on sidewalks every day. Their goal was to distract you from picking the right card... and to separate you from your money. We all just witnessed a bait and switch in the news headlines earlier this week. This is three-card Monte on STEROIDS.

Fox News settled with Dominion over claims of election fraud in the 2020 presidential election. Fox News will now pay Dominion \$787 million because Fox News claimed the election was rigged by fraudulent voting machines.

Because Fox News settled with Dominion, now the Marxist-controlled mainstream media will go into full bait-and-switch mode. They will claim "the case is settled and closed. It's now proven the 2020 election wasn't rigged and stolen."

What a scam. What a con. This is the all-time bait and switch.

I may be the TV and radio host most associated with reporting the 2020 election was rigged and stolen. I've said it thousands of times on radio and TV. I've said it from the day after the 2020 election to today. I'll never stop saying it — because it's true.

The 2020 election was stolen.

And I believe elections are still being rigged and stolen. The 2022 midterms were almost as bad as the 2020 presidential election. One race is Exhibit A. Democrats clearly stole the Arizona governor's race from Kari Lake. Arizona Democrats rigged the vote by making sure vote tabulators didn't work on Election Day in heavily GOP districts.

Democrats are rigging and stealing elections like the Swiss make clocks — with precision. It's what they do. They rig, cheat and steal.

Yet in all these many years of my reporting and shouting and warning about stolen elections, I've never mentioned Dominion, or their voting machines. Because there are so many other simple, easy, low-tech

ways Democrats steal elections.

Here is the Democrat playbook for stealing elections.

No. 1: No government-issued voter (or photo) ID.

Did you know we are the only major nation in the world without government-issued voter ID? Did you know all the other nations acknowledge that voter ID is necessary to prevent widespread voter fraud?

Did you know that Mexico requires government-issued photo ID plus a thumbprint?

Did you know U.S. territory Puerto Rico requires government issued photo ID plus thumbprint to vote? Yet in America its “racist” (says Democrat frauds) to ask for the same thing required in a U.S. territory.

No. 2: Mail-in ballots handed to everyone (in many states mass-mailed to voters without even asking), without voter ID.

Did you know we are the only major nation in the world to allow mail-in ballots? Did you know all the other nations acknowledge publicly that mail-in ballots are a recipe for massive voter fraud?

Did you know even ultra-woke Starbucks demands in-person voting for its own union elections? They told a court that voting by mail leads to voter fraud.

But I’m just getting started. I believe the 2020 election was stolen by...

No. 3: Five states colluding to stop the vote count on Election Night — for the first time in history. They sent all witnesses home, then they magically found enough votes by morning to overcome Trump’s huge leads — with no witnesses in the room.

No. 4: Ballot harvesting with no oversight — a practice that until COVID-19 was criminal in 49 states.

No. 5: Ballot drop boxes with no oversight. If you don’t understand, please watch the movie “2000 Mules.”

No. 6: Little or no signature match on these millions of mail-in ballots.

No. 7: Counting fake ballots for days after elections. Ask yourself one simple question: What are the odds only Democrats have won every single time in history, after being behind on Election Night and then a week of counting ballots? I’m no math genius, but I’d say the odds of that are 1 in a billion.

No. 8: Voter rolls contain millions of inactive or improper registrations.

No. 9: Illegal aliens voting by the millions. In many states (like my state of Nevada), it’s legal for illegal aliens to get drivers licenses. While at DMV, they are automatically registered to vote. You don’t think they’re voting?

No. 10: How about \$400 million from Mark Zuckerberg to get out the vote only in deep blue Democrat districts? If Zuckerberg gave \$400 million, how much did George Soros give to rig the election?

No. 11: How much did China give in illegal contributions to Democrats? We know Democrats took in hundreds of millions in suspicious donations from unemployed Americans. Where do you think that came from?

And the big one...

No. 12: We now know the FBI rigged the election. They paid Twitter to change the news feed in favor of Biden and silence conservative voices on social media. See emails released by Elon Musk. The FBI rigged the 2020 election. FACT.

So, a FNC settlement with Dominion settles nothing. You and I know the 2020 election was rigged and stolen from a hundred directions.

Don't fall for the bait and switch.
