President Trump Claims Election Was Rigged; Sidney Powell Promises to “Release the Kraken” to Prove It

[In a series of tweets](#) on Sunday morning President Trump declared that the election was “rigged” and that the thieves were “caught trying to steal votes”:

[Joe Biden] only won in the eyes of the FAKE NEWS MEDIA. I concede NOTHING! We have a long way to go. This was a RIGGED ELECTION!...

He won because the Election was Rigged. NO VOTE WATCHERS OR OBSERVERS allowed, vote tabulated by a Radical Left privately owned company, Dominion, with a bad reputation & bum equipment that couldn't even qualify for Texas (which I won by a lot!), the Fake & Silent Media, & more!...

All of the mechanical “glitches” that took place on Election Night were really THEM getting caught trying to steal votes.

Sidney Powell, the legal tigress who has joined Trump's legal team headed by Rudy Giuliani, promised on Friday night to “release the Kraken”: all the evidence needed to convince even the most hardened skeptic that not only did Trump win the election but he “won this election in a landslide,” said Powell. She told Lou Dobbs:

I can hardly wait to put forth all the evidence we have collected on Dominion, starting with the fact that it was created to produce altered voting results in Venezuela for Hugo Chavez and then shipped internationally to manipulate votes for purchase in other countries — including this one.

It was funded by money from Venezuela and Cuba, and China has a role in it also. So, if you want to talk about foreign election interference, we certainly have it now.

We have staggering statistical evidence. We have staggering testimony from witnesses, including one who was personally in briefings when all of this was discussed and planned, beginning with Hugo Chavez and how it was designed there, and then saw it happening in the country.

As soon as the states shut down on election night and stopped counting, those are the states

where the most egregious problems occurred.

We also need to look at, and we're beginning to collect evidence, on the financial interest of some of the governors and secretaries of state who actually bought into the Dominion systems ... that would either make sure their election was successful or they got money for their family from it.

The fraud is gigantic, according to Powell:

For fraud this serious, I think even if the states are stupid enough to go ahead and certify the votes where we know the machines were operating and producing altered election results — if they're stupid enough to do that — then they will be set aside by the fraud also.

I mean, we're talking about hundreds of thousands of votes.

President Trump won this election in a landslide. It's going to be irrefutable, and we're — patriots are coming forward all, every day, all day, faster than we can collect their information with the testimony they're willing to give under oath about how their votes were stolen and how the machines operated.

[The machines] were updated the night of the election, sometimes after the election. We've got statistical evidence that shows hundreds of thousands of votes being just put in and replicated. It's going to be — there needs to be a massive criminal investigation, and it's going to affect millions of voters and elections.

She promised to “release the Kraken”:

It's been organized and conducted with the help of Silicon Valley people, the Big Tech companies, the social media companies, and even the media companies, and I'm going to release the Kraken.

It is indeed a very foul mess. It is farther and wider and deeper than we ever thought, but we are going to go after it. And I am going to expose every one of them.

One American News Network (OANN) exposed ties between Dominion Voting Systems and the Clinton Foundation. It was that system that, as the president tweeted on Thursday, “deleted 2.7 million Trump votes nationwide” and switched 221,000 Pennsylvania votes from him to his opponent.

While the mainstream media continues to claim there was little or no fraud and that the president should concede so the nation can “heal” and “unify,” Trump's legal team is about to “release the Kraken.”
