The CIA and the U.S. intelligence community are linked to wild projects that will utterly transform life on Earth if not stopped involving biowarfare, genetic engineering, total digital surveillance, and even election irregularities, explained independent researcher Kristen Williamson in this interview on Behind The Deep State with The New American magazine's Alex Newman. A lot of this dangerous activity revolves around Arizona State University President and In-Q-Tel Chairman Michael Crow. It is time for Trump and Congress to start asking questions—and then do something.
