With the passing of Pope Francis, The New American Senior Editor Alex Newman spends this episode of Behind The Deep State examines the late pontiff's involvement in the United Nations-backed effort to unite the religions of the world behind the causes of globalism and environmentalism.

Newman also highlights various organizations and programs aimed at bringing the world's religions together to create a new system of ethics and morality centered on care for "Mother Earth" rather than the Creator. The agenda is very real, and it is critical to understand it.
