Real Russian Collusion: Hunter Biden Hauled in Big Bucks From Russian Billionaire Widow

Sex and drug addict Hunter Biden isn't just boon companions and business pals with [Chinese Reds](#) and [corrupt Ukrainians](#).

He's also done business with a Russian billionaire widow. That means that Traitor Joe Biden's little boy — the "[smartest guy](#)" POTUS 46 knows — did exactly what Democrats accused POTUS 45 Trump of doing: colluding with Russians.

The widow, Yelena Baturina, pumped almost \$50 million into the crack-smoking, sex fiend's real estate company, the *Daily Mail* has revealed.

Leaked Emails

Though a 2020 [U.S. Senate report flagged](#) a \$3.5 million payment from Baturina to Hunter Biden, the *Mail* revealed that the wayward first son's money connection to the Russian widow was much more lucrative.

Indeed, the *Mail* has revealed that Biden, discharged from the U.S. Navy because he's a crackhead, is a modern-day Renaissance-Business Man. He's isn't just a man who [commands the attention](#) of bazillionaire Chinese tech and energy investors. He's not just an [expert invited to guide](#) a Ukrainian energy company — for \$50,000 a month — because of his deep knowledge of natural gas.

He's a real-estate magnate trusted to invest the money of Russian widows!

Baturina dumped "\$40 million in a real estate venture by Hunter's company Rosemont Realty," the [Mail reported](#). The money was part of the company's plan in 2012 to invest \$69.7million in 2.15 million square feet of office space in seven U.S. cities:

Documents outlining the plan said the money came from a mix of investors, including \$40 million from Inteco Management AG, a Swiss company owned by Baturina.

The Inteco group is a plastics and construction behemoth that made Baturina the richest woman in Russia at the time. She has a current net worth of \$1.4 billion according to Forbes.

The documents reveal that Hunter's financial ties to Baturina began years earlier than previously thought — and were much more significant as well.

Again, though, this isn't the first time Hunter Biden's dealings with Baturina were divulged.

[A report](#) from the U.S. Senate Finance and Homeland Security committees, [Hunter Biden, Burisma, and Corruption: The Impact on U.S. Government Policy and Related Concerns](#), showed Baturina's \$3.5

million investment in Biden.

“In 2015 Baturina set up a US office to oversee her American investments and in 2016 she put \$10 million in commercial buildings next to the Barclays Center in Brooklyn, New York,” the [Mail continued](#):

But according to the new email ... Baturina had already negotiated an investment deal with Rosemont Realty back in 2012 to plow \$40 million into the purchase of seven office buildings in Texas, Colorado, Alabama, New Mexico and Oklahoma.

The emails come from a leak obtained by an anti-corruption group, the Kazakhstani Initiative on Asset Recovery. The emails were sent to Kenes Rakishev, a Kazakh businessman worth more than \$950 million, who became friends and business partners with Hunter.

Rakishev was photographed with Hunter and then-Vice President Joe Biden at an infamous meeting at Cafe Milano in Washington DC in 2015....

Hunter’s friend and partner in Rosemont Realty, Devon Archer, was trying to get Rakishev to invest in their US office building venture alongside Baturina, and emailed him details of the deal in May 2012....

Archer attached a three-page document written in Russian outlining the deal. The document says the seven offices would be bought by a partnership set up in March 2012, and that “Rosemont Realty has entered into property acquisition contracts for \$212,580,000.”

The deal comprised about \$52 million in cash and \$160 million in mortgages.

Rosemont Realty was putting up at least \$15 million of its own cash alongside Baturina’s and other investors, the document said.

“The Managing Partnership will receive a total investment of \$69,700,000 from the partners. The Managing General Partner will invest at least \$15,000,000 of share capital on the same terms as all partners in the Investment Partnership,” an approximate Russian translation states.

Laptop Revelations

The latest disclosure about Hunter Biden’s prodigious talents is one of the few that have not come from the notorious “[laptop from Hell](#).”

That not only [contained details](#) about his [dealings with China and Ukraine](#) but also revealed the serious national security risk [he posed](#) given his addiction to drugs, hookers, and pornography.

The leftist Mainstream Media [dismissed the laptop](#) as “Russian disinformation,” [as did](#) Biden’s father and his Democrat handmaidens. As well, 51 U.S. former intelligence officers [also lied](#) about the laptop to protect fellow Deep Stater Biden’s presidential candidacy.

[Democrat donors inside](#) the FBI ran the laptop censorship effort.
