

Schools Are Brainwashing Kids to Hate America Through “Ethnic Studies” Curricula

From [FreedomProject Media](#):

School lessons teaching vitriolic hatred of America, Christianity, the traditional family, individual liberty, and more are spreading across the country like a deadly cancer. And like cancer, the result will be suffering and death — in particular, death of sanity and civilization, among other victims.

Under the guise of fighting “whiteness,” government schools from California to North Carolina and everywhere in between are subjecting the captive children in their care to so-called “ethnic studies” programs. These ideological and political brainwashing schemes bring to mind communist re-education programs, critics said.

As part of “ethnic studies” curricula, children are given classroom instruction on how “race, class, gender, sexuality, and citizenship status are tools of oppression, power, and privilege,” explained writer John Murawski in a piece for RealClearInvestigations blowing the lid of the newest Marxist indoctrination programs to hit U.S. schools.

During the lessons, Murawski continued, the children are taught that “colonialism, state violence, racism, intergenerational trauma, heteropatriarchy,” and other real and imagined evils are all linked together by a common thread: “whiteness.” And so, society must be radically transformed along Soviet lines to deal with it.

Of course, all of this is idiotic to the max. But because children today no longer receive even basic training in logic or real history — [most in California cannot even read](#) — they have no way of realizing that they are being manipulated and duped. Instead, the children are unwittingly being weaponized to break down America, liberty, the church, the family, and even civilization itself, literally.
