Utah Sees 10,000% Increase in Girls Getting “Sex Change”

SALT LAKE CITY — Facing an avalanche of transgender propaganda in government schools and in “entertainment,” one of the most conservative states in America has seen a 10,000 percent increase in the number of minor girls undergoing a “sex change” just in the last five years. And the worst may be yet to come.

According to data on medications compiled by the Utah Controlled Substance Database, which is maintained by the state Department of Commerce’s Division of Occupation Licensing and Professional Licensing, there were only 5 children undergoing a “medical transition” from female to male in 2015. By 2019, that number had mushroomed to 553. This year’s figures are not available yet, but they are expected to show a continued increase.

The drugs in question typically include puberty blockers and hormones designed to trick the body, many of them with horrific side effects. When testosterone injections are given to girls, they begin to grow facial hair and get a deeper voice. They also end up being permanently sterilized, ensuring that they will never be able to have a natural family of their own. After the hormones, gender-confused individuals often pursue surgical mutilation of their genitals to impersonate the opposite sex.

Pro-family groups in Utah who argue against the surgical mutilation of children fought hard to ban these ghoulish abuses in the state legislature. Led by a broad coalition of Christian churches, ministries and non-profit organizations under the banner of Empowered Families, they pursued legislation that would have prohibited the chemical or surgical sterilization of minors in Utah.

Radical LGBT activists, though, claiming to defend “healthcare for transgender children,” succeeded in quashing the legislation for this session. Equality Utah celebrated victory in late March, blasting the groups trying to protect children from castration, sterilization and experimental genital mutilation as being “anti-transgender” for pushing a “cruel medical ban.”

In reality, what is cruel is permanently destroying the healthy bodies of young children — children who are not old enough to smoke, drink, vote, sign a contract, buy a gun, rent a house, and so on, but who are supposedly old enough to decide they want to be sterilized and mutilated forever. Studies show more than 9 out of 10 confused children will eventually grow out of the delusion on their own.

The news comes as [Swedish authorities revealed in February](#) a shocking 1,500 percent increase in girls claiming to be “transgender” in that country. Officials ludicrously claimed not to know what was behind the exploding levels of gender confusion, deliberately ignoring the extreme indoctrination programs at school and in the media that have bombarded children in Sweden for years.

In California, which is at the forefront of pushing gender confusion on children trapped in government schools, a similar phenomenon is occurring. According to a recent study by the University of California, Los Angeles (UCLA), [more than 27 percent of children in the state between the ages of 12 and 17 now identify as “gender non-conforming.”](#) The rest of the nation will follow if this continues.

Experts have long warned that as society normalizes, promotes and even glamorizes gender confusion and homosexuality, the number of individuals claiming to be transgender or homosexual would increase in tandem. With schools force-feeding the propaganda to children captive in government schools, then, the increases are hardly surprising.

Like in many conservative states, Utah parents are often in total denial about the fact that their children are being indoctrinated and sexualized in public schools. But as education officials confirmed to this writer with documents and links to official websites, the same perverted organizations sexualizing children in California and Washington State are abusing children in Utah as well.

The American College of Pediatricians argues that it is “child abuse” for adults to try to convince children that a life of chemical and surgical impersonation of the opposite sex is normal or healthy. It is child abuse, and it should be treated as such. Any school or quack “doctor” seeking to convince children to mutilate their genitals in a “sex change” should be held fully accountable by the law.
