

## A New COVID Cure?

Dr. Danilo O. Fernandez, founder, president & medical director of GlobalMed
Technologies USA, discusses a potential
COVID-19 treatment, known as Photonic
Corpuscular Irradiation (PCI), also known as hemo-irradiation, whereby the blood is irradiated and destroys the coronavirus infection. Having already received an Institutional Review Board (IRB) approval, Dr. Fernandez is eager and ready to begin Phase One clinical trials for what he hopes could be a game-changer and revolutionary breakthrough to end the pandemic.
