Final Push to Shift U.S. Demographics Permanently Begins Friday. 25K Refugees To Be Admitted

In two days, the Biden Regime will begin the final push for the demographic transformation of the United States and a permanent Democrat majority by importing as much of Central America's population as it can.

On Friday, border authorities will begin processing what the Associated Press called the "first wave" of 25,000 illegal aliens who want to apply for "asylum."

The tsunami of "migrants," some of whom undoubtedly carry the potentially fatal China Virus, will begin arriving pursuant to Biden's rescission of President Trump's Remain in Mexico policy. That policy required asylum applicants to stay on the other side of the border while the United States evaluates their cases, [almost of which](#) are likely bogus.

Once in the country, Biden will release them to disappear into the heartland.

Big Numbers

"The first wave of an estimated 25,000 asylum-seekers with active cases in the 'Remain in Mexico' program will be allowed into the United States on Feb. 19," [AP reported](#). "They plan to start slowly, with two border crossings each processing up to 300 people a day and a third crossing taking fewer numbers."

Biden knows the policy is a bad one, which is why he can't disclose the locations of the crossings. He fears a mad rush that would overwhelm border stations, AP reported. A loose-lipped congressman says they are Brownsville and El Paso, Texas, and the San Ysidro crossing in San Diego, California.

Reported AP:

The move is a major step toward dismantling one of former President Donald Trump's most consequential policies to deter asylum-seekers from coming to the U.S. About 70,000 asylum-seekers were enrolled in the program officially called Migrant Protection Protocols since it was introduced in January 2019.

On Biden's first day in office, the Homeland Security Department suspended the policy for new arrivals. Since then, some asylum-seekers picked up at the border have been released in the U.S. with notices to appear in court.

"As President Biden has made clear, the U.S. government is committed to rebuilding a safe,

orderly, and humane immigration system,” Homeland Security Secretary Alejandro Mayorkas said. “This latest action is another step in our commitment to reform immigration policies that do not align with our nation’s values.”

As [The New American reported](#) after Biden picked him, Mayorkas is an open-borders, anti-American subversive who conceived the Obama administration’s imprudent Deferred Action for Childhood Arrivals. DACA is the amnesty for illegals who arrived as “children” through “no fault of their own.”

Mayorkas, a leftist Cuban immigrant, hampered efforts to uncover immigration fraud as chief of U.S. Citizenship and Immigration Services under President Obama.

Anyway, Biden won’t detain the “asylum seekers.” Instead he’ll dump them into communities. Taxpayers will foot the bill.

Mad Rush to the Border

Unsurprisingly, “migrants” — leftist code for illegal aliens — have been heading for the border for some time. They anticipate an amnesty and know Biden will welcome all comers, China Virus regardless.

AP claimed that UN and relief agencies will test the border jumping masses for the virus. Maybe, but that doesn’t change their mind-boggling numbers, [AP reported](#):

Raul Ortiz, deputy chief of the Border Patrol, said Tuesday that more than 3,000 people had been stopped in each of the previous 10 days, compared with a daily average of 2,426 in January.

About 50 to 80 adults and children have been arriving daily since Jan. 27 at Catholic Charities of the Rio Grande Valley in Texas, which temporarily houses people released by the Border Patrol, said Sister Norma Pimentel, the group’s executive director. The charity tests for COVID-19 and sends anyone who tests positive to a hotel for isolation.

Jewish Family Service of San Diego housed 191 asylum-seekers the first 10 days of February after they were released, up from 144 in January and 54 in December, said Eitan Peled, the group’s border services advocate. They are quarantined in hotels for 10 days.

Those figures are unsurprising.

Biden’s [wildly imprudent promise](#) to open the borders to anyone with a pulse has left border agents besieged.

As [TNA reported](#) last week, agents apprehended almost 300,000 illegals, October through January, the first four months of fiscal 2021. That’s almost double the number through the same time last year.

If that rate holds up, agents will have apprehended almost 900,000 by fiscal year’s end on September 30.

That, of course, is the goal: Flood the country with Third World immigrants who will work for low wages and vote for Democrats.
