

Chip Roy: Biden Should Be Impeached Over Immigration Crisis

Representative Chip Roy (R-Texas) essentially gave 200,000 reasons why he believes President Joe Biden should be impeached and removed from office. After noting that more than 200,000 illegals were taken into custody in July, Roy [told the Daily Wire](#):

Over the past several months President Biden and [DHS Secretary] Mayorkas have blatantly and consistently refused to do their constitutional duty to take care that the immigration laws be faithfully executed, as required by Article II [of the U.S. Constitution], endangering countless American and foreign lives in the process.

An average of 6,779 illegals crossing the southern border of the United States every day in July. That's more than 200,000 for the month and, if left unchecked, would approach two and a half million for the year.

Chip Roy's reasons for impeachment add to those outlined by Representative Marjorie Taylor Greene (R-Ga.) in her impeachment filing the day after Joe Biden entered the Oval Office:

President Joe Biden is unfit to hold the office of the presidency. His pattern of abuse of power as President Obama's Vice President is lengthy and disturbing.

President Biden has demonstrated that he will do whatever it takes to bail out his son, Hunter, and line his family's pockets with cash from corrupt foreign energy companies.

President Biden is even on tape admitting to a quid pro quo with the Ukrainian government threatening to withhold \$1,000,000,000 in foreign aid if they did not do his bidding.

President Biden residing in the White House is a threat to national security and he must be immediately impeached....

Joe Biden abused the power of the Office of the Vice President, enabling bribery and other high crimes and misdemeanors, by allowing his son to influence the domestic policy of a foreign nation and accept various benefits — including financial compensation — from foreign nationals in exchange for certain favors.

After detailing Hunter's efforts to sell his father's influence to officials of foreign governments, Greene concluded in her articles of impeachment:

President Biden gravely endangered the security of the United States and its institutions of government. Through blatant nepotism, he enabled his son to influence foreign policy and financially benefit as a result of his role as Vice President.

He supported his son engaging in collusion with Chinese Communist party-linked officials. He allowed his son to trade appointments with his father and other high-ranking administration officials in exchange for financial compensation. He permitted his son to take money from Russian oligarchs, including Elena Baturina, the wife of the former mayor of Moscow.

By enabling the flow of illegals to become a flood, some say Biden and his DHS secretary are threatening the very foundations of the Republic. This is the same Republic that Biden swore to uphold and defend against all enemies, foreign and domestic. Instead, he is allowing those enemies, both foreign and domestic, including his son Hunter, to run wild, without restraint.

The 200,000 who just entered the U.S. illegally last month merely add to the lengthening list of reasons why many say Biden should be impeached. Of course, since there is a Democrat majority in both houses of Congress, the possibility of this happening are basically zero.
