DOJ Report: Biden Targeted Christians for Mistreatment, Prosecution Over Traditional Beliefs on Social Issues

The far-left Biden administration waged ideological war on Christians from its earliest days in 2021, a new report from the federal Justice Department (DOJ) shows.

The report documents the administration's pushing "its radical policy agenda, even when its actions infringed on Christian beliefs, free exercise, and on matters of deep personal importance to nearly every American: life, family, marriage, self-identity, education, medical decisions, and more," [DOJ said](#) in its press release on the report.

That's because the ideology of Biden and his appointees "clashed" with Christian beliefs, and those appointees — many of them sex perverts — campaigned to smear and marginalize Christians, and even portray them as potential terrorists.

The goal, as acting Attorney General Todd Blanche said, was to "punish Christians for their faith."

Traditional Catholics Smeared as Potential Terrorists

Eradicating Anti-Christian Bias within the Federal Government, published by the Task Force to Eradicate Anti-Christian Bias, explains that former President Joe Biden's "policies regularly clashed

with a Christian worldview and burdened traditional religious practices.” The conflicts concerned the usual social issues: abortion, gender ideology, and sexual orientation.

The report’s 14 key findings show that the administration aggressively prosecuted Christians over abortion, refused to acknowledge the right of conscience to refrain from participating in abortion, smeared traditional Catholics who attend the Latin Mass as crazed racists and terrorists, and sicced the Internal Revenue Service on Christian churches that held fast to traditional beliefs.

Citing DOJ’s recent report titled *The Biden Administration’s Weaponization of the Freedom of Access to Clinic Entrances Act* [FACE Act], the *Eradicating Anti-Christian Bias* report avers that Biden’s “DOJ operated as an enforcement arm for abortion non-governmental organizations (NGOs), especially National Abortion Federation, Planned Parenthood, and Feminist Majority Foundation.” The enforcement involved prosecuting Christians for protesting abortion near clinics.

Biden’s DOJ “routinely” contacted the groups and their affiliated abortuaries. And in most prosecutions under the FACE Act, the pro-aborts “alerted the Biden DOJ to pro-life activities and gathered evidence at DOJ’s request,” the [report says](#):

Abortion NGOs prepared dossiers on Christian, pro-life advocates, including photographs and personal information about the advocates’ children. The NGOs also alerted the Civil Rights Division to their protests, rallies, and social media posts, so that the Biden DOJ could search for chargeable offenses.

The Biden DOJ knowingly withheld evidence that defense counsel requested in order to prepare an affirmative defense for at least one pro-life defendant.

As well, the “Biden Federal Bureau of Investigation (FBI) investigated, monitored, tracked, and scrutinized traditional Catholics who had engaged in no criminal misconduct,” a [second key finding says](#).

[Relying on](#) the disgraced and discredited Southern Poverty Law Center (SPLC), Biden’s FBI office in Richmond “conducted a low-level investigation” into a man who identified himself as a “radical traditional Catholic.” The FBI targeted his church, the report says, and “began to consider traditional Catholics as potential violent extremists or domestic terrorists based on their preferred popes, devotion to the Traditional Latin Mass, and views on abortion, immigration, and human sexuality.”

That part of the report [riffs off of another](#) from a subcommittee of the House Judiciary Committee. [SPLC was recently indicted](#) on multiple federal charges of funneling money to the hate groups it claims to fight.

Crackdown on Disfavored Religious Expression

The Biden administration also attacked those who expressed beliefs its [retinue of fruits and nuts](#) didn't like. It even "curtailed Christians' ability to jointly worship and study the Bible."

"When groups of Christian pro-life students and parents visited Washington, D.C., to participate in the 2023 March for Life, two federally managed museums on the National Mall asked them to remove their religious and pro-life attire or leave the premises," [the report says](#):

In 2023 and 2024, the National Park Service denied a Catholic organization access to a national cemetery where it intended to hold a quiet Memorial Day mass to honor fallen soldiers. In the [Department of Labor] Jobs Corps program, a Christian student was repeatedly prohibited from holding a voluntary Bible study outside of school hours. And in

2023, a Catholic hospital in Oklahoma was told to extinguish the flame of a religious candle or risk losing its participation in Medicare and Medicaid, including Children's Health Insurance Program funding.

"The Biden Internal Revenue Service (IRS) investigated churches because of what their pastors preached and Christian organizations because they applied biblical teachings to daily life," [another key finding says](#). In one case, the administration vetoed tax-exempt status for a Christian outfit. Reason: Its "[B]ible teachings are typically affiliated with the [Republican] party and candidates."

Another item: Attorney General Merrick Garland's memorandum that identified parents who ask hard questions at school board meetings as possible extremists. The "Garland Memo" pretended that school boards needed the protection of the FBI. School board members, the [memo says](#), might be "intimidated" [by angry parents](#) who might [loudly complain](#) that a "gender-fluid" boy raped their daughter in a girls' restroom thanks to a school district's lunatic "transgender" policies.

Biden Personnel

"The Task Force found that, in its zealous pursuit of its preferred policies and constituents, the Biden Administration engaged in anti-Christian bias, seeking to limit Christians' ability to act in concert with their sincerely held beliefs in their homes, in the workplace, and in the public square," the report concludes:

At times, it went still further, leading Christians to reportedly choose between their beliefs and compliance with federal law. And, most troublingly, the Biden Administration is alleged to have prosecuted and jailed peaceful Christian pro-life demonstrators, terminated or harassed Christian workers who did not comply with the vaccine mandates, targeted Christian organizations with IRS inquiries, and subjected Christian schools to excessive fines.

The administration's zealotry is partly explained by the number of sex perverts whom Biden hired. The highest level such appointee [was Richard Levine](#), a doctor who calls himself "Rachel." He was the No. 2 official at the Department of Health and Human Services (HHS). Levine, who pretends he is a woman, [wants to give](#) "transgender" kids "gender-affirming" medical care, which means dangerous puberty blockers and mutilating surgeries such as penectomies and mastectomies. Levine pranced around HHS in an admiral's uniform for women.

Second on that list was Sam Brinton, a bald, non-binary sadist and [devotee of "pup play"](#) who [participates in](#) homo spanking seminars [and advocates](#) underage homosexual prostitution.

Biden's choice for "monkeypox czar" was a flaming homosexual named Demetre Daskalakis. He accoutered himself like one of the Village People in his spare time.

Another slap in the face to normal Americans: White House Press Secretary Karine Jean-Pierre, a lesbian immigrant from Haiti.

[Biden also picked](#) a transvestite for his Defense Department transition team. It was probably a good choice, given that Biden [promptly ordered](#) the department to enlist "transgenders" in the military.
