The Biden Regime recently enacted massive changes to the federal law intended to prohibit sexual discrimination in educational institutions. If allowed to stand, Title IX changes will codify transgender lunacy into law. The Biden Regime is arguing that the term “sex” also includes “sexual orientation” and “gender identity.” TNA’s editorial members discuss how multiple states are pushing back; the unconstitutional relationship between education and government; and core of this fiasco, the desire by statists to redefine what God has already set in stone.
