The United Nations and climate alarmists are concealing the truth about climate, explains author Jim Hollingsworth in this interview with The New American magazine's Alex Newman. This is partly because people don't seem to want to know the truth, he said, as evidenced by the fact that people don't read. The Europeans are going to find out the hard way that these policies based on pseudo-science are devastating. The goal of the climate movement is tyranny and control over people using fear, he said.
