There are dark forces behind the “New Age” movement that have operated through organizations such as the Tavistock Institute to transform mindsets and behavior for a ghastly new future, warned author, researcher and podcaster Courtenay Turner in this explosive interview on Behind The Deep State with The New American magazine’s Alex Newman.

Tavistock, which was funded by the Rockefeller dynasty, was originally charged with creating more effective soldiers. But later, the organization began turning its focus toward the civilian population, laying the groundwork for the CIA’s “mind control” project MK Ultra. Now, the group is working to change children, the next generation, using everything from transgenderism to behaviorism.

Turner also discusses the convergence between Tavistock and the Marxist Frankfurt School, which spread horrific ideas to destroy the family and morality through American culture via academia. Yet another area of influence for these operators was “corporate culture,” she explains.

Turner also has a book coming out soon that will explore incredibly significant but esoteric topics. Don’t miss this incredible episode.
