The United Nations and its member governments have been busy planning out your future—a future of censorship, tyranny, global governance, indoctrination of children, and more—explained The New American magazine Senior Editor Alex Newman in this episode of Behind The Deep State after returning from the UN Summit of the Future. The summit, which received very little publicity, adopted the UN “Pact for the Future” by consensus. Under the scheme, the UN would be empowered to deal not just with “peace,” but to oversee everything from education and the environment to energy and more. Newman was able to ask many key leaders about their plans, only to be rebuffed and marginalized. Watch and see what the Deep State and its UN tentacle have planned for you.
