Bonnie Wallace, a Texas mother and activist, was sued for urging her County Commission to remove disgusting sexual books intended to groom and harm children in libraries.

Upon hearing about the materials, she couldn't believe it. But after doing research and discovering the heinous imagery in the books firsthand, she had to take action, Wallace explained to Alex Newman for The New American's Conversations That Matter.

Now, she has been on a crusade to clean up America's libraries and has traveled the nation on a mission. "Let me tell you, I have been in over 1,000 libraries, and I am sad to say that I have not found one clean library. Not one," Wallace revealed.

Parents and concerned citizens **MUST** get involved and protect children before it is too late.
