A congressional investigation reveals that White House officials bullied the largest book retailer in the world, Amazon, to suppress a pile of books critical not just of the Covid injection but vaccines in general. The list of childhood vaccines has grown exponentially over the last half century. All this begs the question: Since the government has made it clear that public safety is not its primary concern, why is it so obsessed with the public perception of vaccines?

Also in this episode:

@ 23:52 | Julian Assange cut a deal with the U.S. government, averting extradition;

The New American

Author: [Paul Dragu](#)

Date: June 25, 2024

@ 47:08 | There is at least one principled and brave lawmaker working hard to ensure the corrupt U.S. attorney faces the music;

@ 49:06 | More proof that America is a country that is collectively mentally ill.
