The affordability crisis for youth is real and severe. A great first step for the Trump administration would be tackling inflation by clearing the path for transactional gold currency. This can be done by removing the capital gains tax on gold, Kevin Freeman, the host of Economic War Room on Blaze TV, told The New American's Andrew Muller at TPUSA's AmFest. The tax is unconstitutional, according to Freeman, who wrote the hit book *Pirate Money*, exposing the Great Reset, the Federal Reserve, and the Deep State's war on currency and property rights. In this must-see interview, he also exposes the growing threat of a red-green-blue-yellow axis of communists, Islamists, globalists, and traitors working to undermine national sovereignty, a project Charlie Kirk personally charged Freeman to oversee.
