President Donald Trump's former national security advisor, John Bolton, recently labeled his old boss "erratic, irrational and unconstrained." Bolton has been making the media rounds, denigrating his old boss every chance he's allowed. In his attacks, Bolton also mentions what is likely the real reason he and his establishment ilk can't afford to let Trump back in the White House.

In this episode, we examine several Trump policies that disrupted the globalists' march toward global government, the establishment's attempt to turn Trump against his America First agenda, what a pure America First agenda would look like, and what Americans really need to focus on if they want to restore power to the people.
