With “Highest Death Rates” in Insurance Business’ History, Vax Could be “Crime Against Humanity,” Suggests Scientist

“We are seeing, right now, the highest death rates we have seen in the history of this business — not just at OneAmerica,” the company’s CEO, Scott Davison, stated last week. “The data is consistent across every player in that business.”

This mortality isn’t among the elderly, either, but Americans 18 to 64 — in the prime of their lives.

What’s more, the numbers are so bad, says Davison, that the situation is worse than “a one-in-200-year catastrophe.”

Most of these aren’t COVID-19-induced deaths, either.

It’s shocking news, and it raised the eyebrows of [Dr. Robert Malone](#), the internationally acclaimed virologist/immunologist and pioneer of mRNA-vaccine technology. In fact, says Malone, mRNA therapy agent (MTA, a.k.a. “vaccine”) mandates constitute “the largest experiment on human beings in recorded history,” have “failed,” and may be “crimes against humanity” warranting new Nuremberg trials.

Reporting on insurance CEO Davison’s comments about unprecedented death rates, The Center Square [writes](#):

OneAmerica is a \$100 billion insurance company that has had its headquarters in Indianapolis since 1877. The company has approximately 2,400 employees and sells life insurance, including group life insurance to employers in the state.

Davison said the increase in deaths represents “huge, huge numbers,” and that’s it’s not elderly people who are dying, but “primarily working-age people 18 to 64” who are the employees of companies that have group life insurance plans through OneAmerica.

“And what we saw just in third quarter, we’re seeing it continue into fourth quarter, is that death rates are up 40% over what they were pre-pandemic,” he said.

“Just to give you an idea of how bad that is, a three-sigma or a one-in-200-year catastrophe would be 10% increase over pre-pandemic,” he said. “So 40% is just unheard of.”

Davison was one of several business leaders who spoke during the virtual news conference on Dec. 30 that was organized by the Indiana Chamber of Commerce.

Most of the claims for deaths being filed are not classified as COVID-19 deaths, Davison said.

“What the data is showing to us is that the deaths that are being reported as COVID deaths greatly understate the actual death losses among working-age people from the pandemic. It may not all be COVID on their death certificate, but deaths are up just huge, huge numbers.”

Note here that that this “third quarter,” age-18-to-64 death wave roughly coincides with when the MTAs were pushed on people under 65.

Reacting to this while interviewed on the *War Room* with Steve Bannon, Dr. Malone [said](#), “The mortality rate in the United States is among the highest in the world right now.” Moreover, the data suggest that the problem isn’t just COVID-19, but that the “overall mortality rate is enormous.”

The implication? First, it’s clear that the “health” authorities, represented by failed NIAID head Anthony Fauci, have mismanaged the coronavirus situation from the get-go: By not only de-emphasizing treatment options (e.g., ivermectin, HCQ) in favor of MTAs — but also demonizing such remedies — they are responsible for SARS-CoV-2 death on a massive scale. In fact, stated renowned physician and COVID expert Dr. Peter McCullough last year, 85 percent of the people who died of the disease could have been saved had early treatment protocols been embraced.

Second, and part of the mismanagement, is that the lockdowns themselves not only didn’t prevent China virus deaths [according to studies](#), but had a secondary effect of serious general-population health consequences. These included a higher incidence of a host of diseases, stress-related disorders, depression and anxiety; and higher rates of suicide, domestic abuse, child abuse, and drug abuse.

Add to this people’s lockdown-induced neglect of medical care such as heart-disease and cancer screenings, and it’s unsurprising that some research indicates lockdowns lead to a net *loss* of life. For example, [one study found](#) that the lockdowns in South Africa caused 29 times as much death as the pandemic alone would have.

Third, the implication is — as *The New American* has [reported extensively](#), including [during the last week](#) — that the MTAs appear responsible for a large number of “side-effect”-induced death.

You don’t have to tell this to Dr. Malone. “It is starting to look to me like the largest experiment on human beings in recorded history has failed,” he [wrote Sunday at Substack](#). “And, if this rather dry report from a senior Indiana life insurance executive holds true, then Reiner Fuellmich’s ‘[Crimes against Humanity](#)’ push for convening new Nuremberg trials starts to look a lot less quixotic and a lot more prophetic.”

Malone later averred that, at minimum, we have “both a huge human tragedy and a profound public policy failure of the US Government and US HHS system,” one that “has contributed to a massive, avoidable loss of life.” At worst, we have those MTA-driven “crimes against humanity.”

The scientist later added:

FURTHERMORE, we have also been living through the most massive, globally coordinated propaganda and censorship campaign in the history of the human race. All major mass media and the social media technology companies have coordinated to stifle and suppress any discussion of the risks of the genetic vaccines AND/OR alternative early treatments.

IF this [actuarial] report holds true, there must be accountability. We are not just talking about running over the [first amendment \[sic\] of the Constitution of the United States](#) and

grinding it into the mud with an army of artificial intelligence-powered heavy infantry. This article reads like a dry description of an avoidable mass casualty event caused by a mandated experimental medical procedure. One for which all opportunities for the victims to have become self-informed about the potential risks have been methodically erased from both the internet and public awareness by an international corrupt cabal operating under the flag of the “Trusted News Initiative.” George Orwell must be spinning in his grave.

Below is the aforementioned *War Room* video, which includes CEO Davison’s testimonial along with comments by Dr. Malone.
